ORACLE DBA EXPERTISE FOR ONGOING DATABASE MANAGEMENT

Digital transformations to meet changing business demands are one of the reasons many businesses are looking to ensure effective and consistent management of their Oracle databases. Adjacent Solutions provides consultive-based DBA support to ease the burden of ongoing maintenance, evolving priorities, enterprise projects, and skillset gaps that impact teams.

At Adjacent Solutions, we believe in working truly adjacent with our partners to understand their unique DBA support needs. Together, we align specialized DBA solutions to ensure optimal ongoing performance, stability, security, and more.

Areas were we bring value to our customers with consultive DBA support:

- **Expertise and Specialized Knowledge:** Get focused, professional DBA talent
- **Cost Savings:** Pay for the services you need in one of our flexible models
- **Scalability and Flexibility:** Adjust the level of service based on your enterprise requirements
- **Advanced Tools and Technologies:** Get cutting-edge tools and technologies to enhance your business
- **24/7 Support and Availability:** SLA-backed support and monitoring services
- **Risk Mitigation:** Experienced experts who can identify risk and implement robust security measures
- **Core Business Focus:** Free your team from technical DBA tasks and focus on core competencies

CONSULTIVE DBA SUPPORT TO MEET YOUR SPECIFIC BUSINESS NEEDS

ORACLE DBA EXPERTISE AND SUPPORT

DBAs play a critical role in helping businesses sustain enterprise performance, stability, security, and much more. Utilizing consultive database administration services provides relief from complex technology management and minimizes business operation risk. Our onshore DBA team can work remotely to augment your team for temporary periods. We help customers alleviate staffing challenges or supplement project staff.

Areas were we bring value to our customers with augmented DBA support:

- **Continuous Management:** Ongoing management and monitoring when your team is unavailable
- **Transition Period:** Transitional support for handover responsibilities to minimize disruption
- **Emergency Situations:** Gain immediate support for unexpected events to minimize downtime and impact
- **Skill Gap Coverage:** Get expert skills and avoid inadequate coverage of your database management
- **Project Support:** Alleviate workload stress and ensure critical tasks are executed on time
- **Security:** Proactive expertise to minimize risk and maintain integrity of data
- **Knowledge Transfer and Training:** Oracle expertise, training, new techniques, and best practices

ABOUT US

Adjacent Solutions is a certified Oracle Solutions Integrator and Managed Services Partner. We value business leaders who need to innovate and offer a variety of flexible, Oracle-based resource assistance, proactive management, and supportive IT solutions and services. With offerings designed around industry best practices and executed with high ethical standards, we believe in working "truly adjacent" with customers to help them at any stage of their Oracle journey.
