Navigating Business Challenges with Oracle Expertise *Supporting Your Acquired Tech-Stack*

Adjacent Solutions is a leading data management and managed services provider delivering trusted Oracle expertise for mergers and acquisitions support. We understand acquiring a technology stack creates a critical need to evaluate your enterprise and the systems that run your business. That's why we work closely with our customers to successfully guide them through comprehensive alignment of their technology systems, processes, and infrastructure while avoiding financial or operational setbacks.

Supporting Customers with Skills, Teams, and Optimization *Collaborating With An Adjacent Support Team*

For businesses lacking skills, experiencing team and/or time shortages, or looking for areas to optimize their technology environment, Adjacent Solutions is here to help.

Our consultants are trusted to deliver a timely merger and acquisition migration process. We provide project management expertise, strong team communication, and proven change management strategies. Focused on our customer's strategic goals, we specialize in aligning technology to address unique business scenarios and enhance technology system capabilities for maximized value.

For most organizations, migrations are part of the merger and acquisition process. Our professional team can support the consolidation of your systems and processes, integration of data, and much more. We can help you design a comprehensive and structured approach to your merger and acquisition, including ongoing managed services support options.

- Documentation & Knowledge Transfer
- Continuous Improvement

Cloud Guidance During Your Merger and Acquisition *Cloud Adoption Consulting with Oracle Experts*

Incorporating digital transformation in your merger and acquisition offers significant opportunities to enhance your integration process and environment. Our consultants help customers discover unrealized synergies and operational inefficiencies that can lead to downtime, financial underperformance, and ultimately missed deliverables.

Digital transformation reduces complex technology challenges that often result in data loss or disruption to applications. Consulting during your merger and acquisition with an Oracle cloud specialist, we are able to deliver a variety of benefits: faster integration and resource allocation for cost optimization. Our expertise ensures that your migration is planned, executed, and managed effectively and securely.

In this process, specialists understand migrations offer an opportunity to address security vulnerabilities and proactively implement standardization measures to protect data. We collaborate with you to develop strategies to mitigate risk and design a disaster recovery plan unique to your enterprise needs.

MERGERS & ACQUISITIONS

Our consultants guide customers through mergers and acquisitions by IT infrastructure and applications to a unified cloud platform.

BENEFITS

- Scalability & Flexibility
- Rapid Integration
- Reduced IT Complexity
- Cost Efficiency
- Data Centralization
- Collaboration & Communication
- Agility & Innovation
- Disaster Recovery
- Business Continuity
- Security & Compliance
- Global Reach
- Resource Optimization
- Cultural Integration
- Reduced Downtime

Benefits of Cloud Adoption in Your Merger and Acquisition *Alignment, Cost Savings, and Enhancement of Your Enterprise*

Cloud adoption plays a significant role in the success of your merger and acquisition. Consultive support allows you to align strategic goals for efficiency and growth, enabling innovation.

Alignment of your enterprise with our cloud migration consultants means we work with you to avoid overprovisioning and overspending. Through best practices and methodology, we eliminate IT complexity, including redundant hardware, infrastructure, and maintenance.

Cloud adoption also includes alignment of your enterprise goals and objectives. Cloud-based models deliver pay-as-you-go services, enabling you to scale resources to respond to market changes and helping you maintain a competitive edge. For ongoing enterprise needs, our team is available to provide continuous managed services support and much more.
